

## Exercise 1:

Feature: Invites

Background:

Given "John Doe" is owner of group "Owned"

And "John Doe" has invited "user@example.com" to group "Owned"

...

Scenario: Accepting the invitation

Given I sign in as "Mary Jane"

And I visit the invitation page

And I click the "Accept invitation" button

Then I should be redirected to the group page

And I should see a notice telling me I have access
