Does the tester role survive in a test infected team?

Juan Gabardini
@jgabardini
#TesterRole
Why are we here?

There was a Revolution!

... for programers

But what about the rest of us: Analyst, UX, Tester, ...

#TesterRole
The Revolution (in 1 min)

As seen from the testing activities perspective

So everybody 'test'!
The Revolution (one more minute)

We no longer define ourself by the activities we take care of.
Skill & Mindset of testers in the **old days**

Discuss and write down in sticky-notes the skill and mindset required to fulfill the tester role.

**Alone:** write 2+ skills  
**In pair:** 3 skills  
**4 people:** 5 skills  
**Whole table:** 9 skills
Skill & Mindset of testers in the agile utopia

Discuss and write down in sticky-notes the skill and mindset required to fulfill the tester role.

Alone: write 2+ skills
In pair: 3 skills
4 people: 5 skills
Whole table: 9 skills
The old times ...

Repeat until ...

And sometimes, create
The old times ...

Comply, check, register
The old times ... 

Pay attention to details
And sometimes look ahead
The old times ...

My life sucks (*)

(*) Level 2 of Tribal Leadership
The old times ...

We defend the poor users from the barbarian (AKA programers) at the gate

(*) Level 3 of Tribal Leadership
Team utopia ...

Explore and experiment

... never repeat yourself
Team utopia ...

Delight customer

... not just comply with requirements
Team utopia ...

Keep your eyes on the stars, and your feet on the ground
Team utopia ... 

We are great!

(*) Level 4 of Tribal Leadership
Team utopia ...

What am I learning today?
So... what's the change in the testing role
Skill and Mindset

From my perspective!
Skill and Mindset

Business process
... from contact to sell
... or from order to delivery
...
Skill and Mindset

Development process
... from vision to product increment
Skill and Mindset

Scientific method (PDCA)
Skill and Mindset

Complexity understanding (Cynefin):
Dimension + values + equivalent partition, independence, linearity
Skill and Mindset

Creative destruction, white hat hacking and ephemeral art
Skill and Mindset

Risk awareness, your worst nightmare and walking on the edge
Skill & Mindset of testers

Discuss delta and report.

5 + 5 minutes!
Tester Skill & Mindset for the whole team

Discuss delta and report.

10 minutes!

#TesterRole
Thanks!
