

### **Sprint**

#### **We finish what we planned**

The percent of what we finished (vs. planned) is higher than last Sprint.

### **Sprint**

#### **Done is Done**

Everything we call done satisfies the definition of done (DoD) we aligned on.

### **Sprint**

#### **Blocked Less**

We are blocked less often (and experience less delay ) this Sprint than last.

### **Sprint**

#### **Everything is tested**

All tests pass for all items accepted for the Sprint.

### **Sprint**

#### **Production Ready**

The system is production-ready state by the end of the Sprint.

### **Sprint**

#### **We finished things the best order**

We finish product backlog items in the order that most helps us achieve the goals most important to us.

### **Sprint**

#### **Our Code Is Cleaner**

Our code is easier to understand, test, and change than when we started the sprint.

### **Sprint**

#### **We limited our WIP**

We maximized flow and reduced our cycle times by limiting our Work In Progress (WIP) to the level optimal for our team.

### **Sprint**

#### **We had fun**

Most members of our team felt like we had fun during the Sprint (more than last Sprint).

### **Sprint**

#### **We finished more stuff**

We finished more items per person this Sprint than last.

### **Sprint**

#### **We Had Fewer Errors**

We have fewer errors per backlog item this Sprint than last

### **Sprint**

#### **We behaved like a team**

We behaved like a team and helped each other (not like a bunch of individuals).

### **Daily Scrum**

#### **We act when things go wrong**

We're NOT complacent; When we're in jeopardy of not achieving our goals for the Sprint we know it and decide on actions so that...?

### **Daily Scrum**

#### **Impediments are removed**

The actions we take result in the removal of anything that slows us down or blocks us from achieving our Sprint goals.

### **Daily Scrum**

#### **Plans are changed**

Our plans are proactively adjusted daily to achieve our Sprint goals based on a current and accurate understanding of our progress.

### **Daily Scrum**

#### **We worked on one thing at a time**

We finish one thing before starting another.

### **Daily Scrum**

#### **We know our progress**

Everyone knows factually whether we're on track or not and whether our plans need updating so we achieve our goals for the Sprint.

### **Daily Scrum**

#### **We finish the most important stuff first**

The order we finish work in helps us achieve our goals and outcomes for the Sprint.

### **Daily Scrum**

#### **Our WIP is limited**

We decide how to reduce our Work In Progress (WIP) when it exceeds our limits.

### **Daily Scrum**

#### **Who worked on what?**

We know what each person on the team worked on.

### **Daily Scrum**

#### **What I plan to work on**

Everyone knows what everyone plans to work on

### **Daily Scrum**

#### **We feel energized**

We leave the daily scrum in a better mood than when we started.

### **Daily Scrum**

#### **What's blocking us?**

We know what's blocking us.

### **Daily Scrum**

#### **We stood up**

Everyone in the meeting stood up during the daily Scrum.
